Guerilla War-fare Against The Rastafari Nation

February 2008
Fort Lauderdale, FL, uSA

The Ethiopian emperor's coronation in the 1930's began a new phase of Ethiopians ideology among black people. The Ethiopianist movement came to a head with the emergence of The Rastafarian Movement, successfully led by **Leonard Percival Howell** a Jamaican Born who lived in the USA and traveled extensively in Africa.

Howell returned to Jamaica and ignited the radical consciousness of Black people on a doctrine of the divine kingship of Ethiopia's "Ras Tafari" introduced (a picture) of His Imperial Majesty Emperor - Haile Sellassie as Rastafari, King of Kings, Lord of Lords conquering Lion of the Tribe of Judah. "saying This is your... Lord and King" He will guide us to Ethiopia's shores.

REPATRIATION/REPARATION

The Rastafarian Movement took a radical revolutionary stand right after the famous "uprising" took place in St. Thomas, Jamaica in the 1930's were many ex-slaves, suffered racism, oppres-

sions, inadequate living conditions, sickness, death and hunger.

PINNACLE, (in St. Catherine) became the safe heaven for thousand of Free-Slaves who desired to live and work communally in unity. Under Howell leadership, **PINNACLE**, was transformed into one of the largest self-reliant/economically empowered community in Jamaica. Several farmers lived and worked in Pinnacle, producing a variety of fruits, vegetables, beans, peas, yams, banana, cassava, corn, coconuts and many other products

That were bought by the Colonial Government of Jamaica who exported and sold to the private and public sectors.

BETWEEN 1941 AND 1957 The very colonial government, that was fed by the food, medicines and herbs from Pinnacle, **RAIDED** ---- **PINNACLE COMPOUND** . Their claim was that the growing of ganja was prohibited to be used by The Rastafarian for medicines, cooking and religious uses. With each raid, the authori-

Leonard P. Howell Foundation Celebrates The Rastafarian Messenger/Father Leonard Percival Howell

ties would take away CASH MONEY that added up to thousand of British pounds.

The colonial, Jamaican government is guilty of brutality, waging guerilla raids and warfare by organizing unjust land invasion stealing money and private property against The Rastafarian Nation throughout the years.

P I R A T E S ! Today, the descendants of these pirates continue to have the right to hold free land hostage in areas throughout the island such as Pinnacle, St. Catherine, Jamaica. WI.

Pinnacle is now sub-divided and being sold off by "St Jago Hills Developments Ltd" a private owned company located at 20 Hope Road, Kingston, Jamaica. WI

Have You Forgotten?

- 80 Years of Rasta History?
- 80 Years of Guerilla Warfare against the Rastafari Family
- Our Rastafarian Estate "Pinnacle", 530 acres located in St. Catherine, Jamaica

Let Your Voices Be Heard! Rastafari Lives!

Today, the wealthy family who owns St. Jago Hills also mask themselves under other elite companies. They are suing the LP Howell Foundation, The Nyahbingi Order and the Nation of Rastafari for our own inheritance. The Rastafari Nation is being sued by the family who own all Jamaica's Burger King franchise!

Most recently, on January 28th, 2008, in a Court Hearing in The Magistrate's Court in Spanish Town, Jamaica. W.I (to reclaim the Pinnacle), it was uncovered that the "St Jago Hills Developers". have incorporated several corporations and trusts throughout the years and have resold Pinnacle to themselves several times. They continue to build upon their wealth by stealing from us.

In November, 2006 "The Leonard Percival Foundation" and other personnel (collective) had a meeting with then, Prime Minister, Portia Simpson for her assistance in transforming and restoring The PINNACLE into a UNESCO recognized World Heritage Site and a International Rastafarian Research Center and in Tribute to and a Monument to Leonard Percival Howell.

Since the death of Leonard Percival Howell in 1981. The Rastafarian have been celebrating his "EARTHDAY" (BIRTHDAY) ON JUNE 16TH ON THE PINNACLE.

After 76 years, the structures of Howell's old house is still standing on the Pinnacle, in St Catherine, Jamaica. W.I as a memory of his contribution to Black People of African heritage that they can be self-dependent, economical, social, political and spiritually empowered, qualified to build their own dynasty as they have been doing since the begin of Human civilization. Also it is a reminder of our heritage and culture.

The next court date is scheduled on April 8, 2008 in The Magistrate's Court in Spanish Town. Come out in unity, solidarity and oneness with perfect order. Bear witness to the family and companies who are still trying to rob us and deny us of a better standard of life for our global family.

Today, we will not let them win. Let us unify and stand as one for something that is greater than us. Remember our great leaders and the noble, militant life they lead to set a foundation that we may repatriate and be sovereign in this generation. Survive The Armageddon and watch the enemies scatter! RASTAFARI!
